InterWeave

Connect. Integrate. Deploy.

What is *InterWeave*?

- An Extensible and Distributed Enterprise Integration Platform
  - Powerful, Lightweight Integration Engine
  - Pre-defined connectors and adapters that de-couple the integration engine from front-end and back-end protocols
- Provides the Ability
  - To leverage and connect processes and data from a wide variety of systems, applications, databases, files, etc.
  - To quickly and easily link systems, share and exchange data, and implement workflows across heterogeneous environments.
- Allows Enterprises to deliver value-add to employees, partners, and customers with:
  - Fewer resources,
  - Less time,
  - And Reduced cost

InterWeave is built around

- Enabling integration through configuration
  - XML/XSLT/XPATH - Not Programming
- A highly secure and scalable architecture
- Being high performance
- Being non-invasive
- Simplifying development, deployment and maintenance
- Being extensible
  - By de-coupling the integration server from front-end and back-end protocols

Where does *InterWeave* fit?

…In the IIM Technology Segment

- Application Development Workbenches
- Application-Application Integration / Workflow
- Data Integration
- Front-end Integration
- Back-end Integration
- Message Oriented Middleware
- ETL
- Application Servers
- Reporting Systems

POWERED BY InterWeave Connect. Integrate. Deploy.

Market Focus

- CRM - Customer Relationship Management
  - On-Demand CRM and Integration Services
- Network Management
  - Integration of Network Management , Monitoring Systems and Asset Management Tracking Systems
- Compliance Management
  - Integration of Disparate Corporate entities
    - Databases, Applications, Divisions, etc.
- Identity and Access Management
  - Integration of Identify and Policy Applications and Data
- Web Services
  - Integrating & Exposing Application & Databases as Web Services
- Composite Applications
  - Non-invasively combining Data and Functionality from multiple existing Corporate Application Silos
    - Accounting, HR, Production, Sales & Marketing, Support Services

Where does *InterWeave* fit?

Initial Verticals and Sales Campaigns:

- CRM
- Network Mgmt
- Compliance
- Identity Management

- Others….

Why Partner with *Integration Technologies*

- Competitive Advantage
- Time to Market
- Thought Leadership
- Stream Line Operations
- Reduce Cost and Overhead
- Improve Business Flexibility and Competitiveness
- Direct ROI and Benefits to your customers

InterWeave is a solution for:

- Application Integration
- Data Integration
- Content Integration
- Policy Integration
- Partner Integration
- Global Visibility & Single View
- Composite Applications
- Personalization
- Business Process Management
- Enterprise Systems Management
- Application Mobilization
- Staged Migration of Legacy Systems

Connector-Server-Adapter Architecture

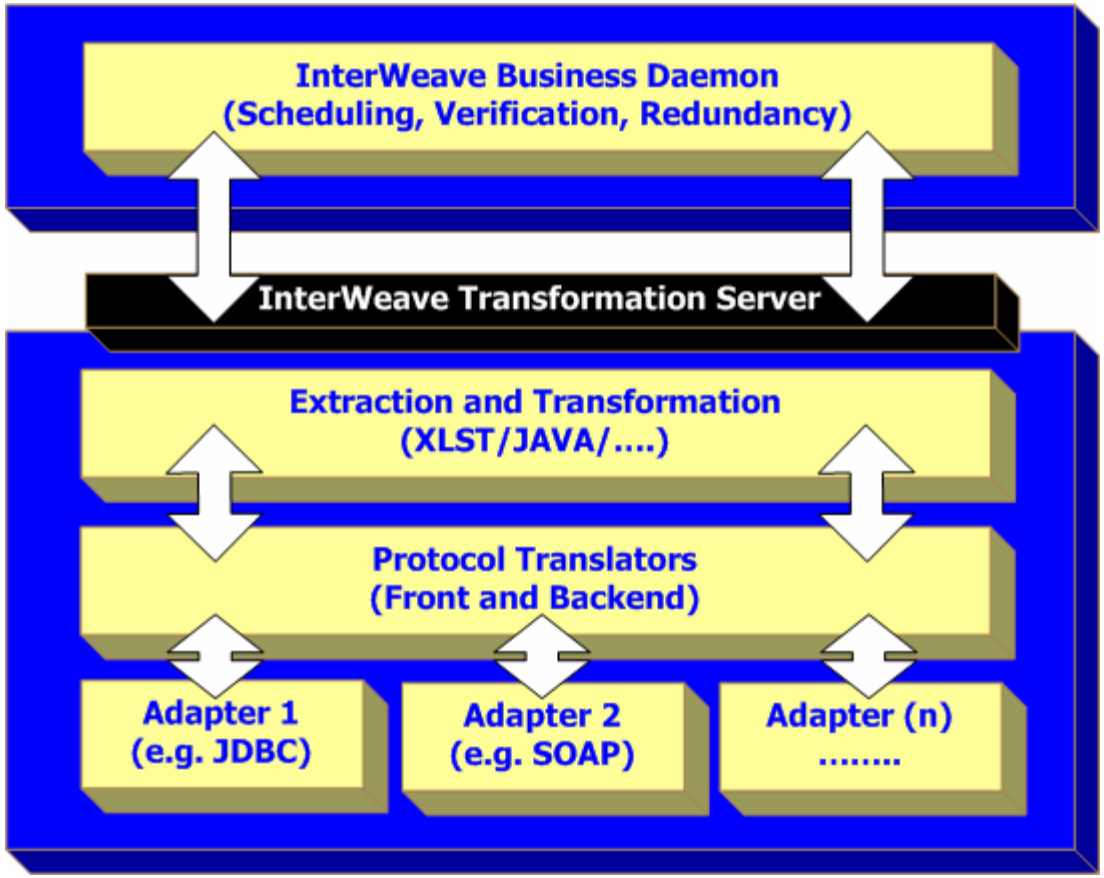
InterWeave Integration Foundation



POWERED BY InterWeave
Connect. Integrate. Deploy.

Examples of front-end and back-end protocols supported

Database	JDBC
Web Services	WSDL, SOAP
Programming	C,C++, COM
Distributed Application Services	JMS, MQ
Messaging and Collaboration	SMTP, LDAP, iCal
Systems Management	SNMP, Netcool
Application APIs	BAPI, IDoc, OIF…
Legacy Protocols	Terminal Emulation/Screen Scraping SOAP for CICS IMS JDBC IMS SOAP Gateway
Gateways	SET…
Flash Remoting MX	AMF
Networked-based Services	IM, XMPP, SMS, ANPA...
Etc.	Etc.
